NEW BUSINESS

- **Review of Round 1 Projects of the Façade Improvement Program**

The Board of Architectural Review met immediately after the Façade Advisory Board met and approved the proposed changes for 15 locations in Round 1 of the Façade Improvement Program. BAR members attended the Façade Advisory Board meeting.

Mr. Camp explained that in order to move forward with the grant, the Façade Advisory Board and Board of Architectural Review needed to approve the renderings and then submit it to the Department of Historic Resources with the state, who ultimately approve it.

The plans were prepared by Frazier Associates who were hired through the grant funds. They have experience working with historic districts and are quite active statewide.

BAR members discussed the proposed colors and noted there were quite a few buildings to be painted in gray and asked Staff if this could be mentioned to Frazier Associates.

BAR members agreed they had no problem with the proposed changes.

Mr. Vaughan moved, seconded by Vice Chairman Whitlow to approve the proposed changes including the Afton Inn proposed changes.
